FINE WINE

Bottle Services

From full-bodied cabernet sauvignon and herbaceous merlot to medium-bodied chenin blanc and sweet, effervescent moscato, the array of wines competing for the holiday table is staggering. This season, **Sotheby's Wine** (sothebyswine.com) offers Winter Instant Cellars (\$995 to \$25,000), designed to ease the process of picking the right bottle by providing options that make perfect meal companions—and hostess gifts. Chosen by the company's wine specialists, four cellar options each vary by price, region, color and quantity—including Champagne options for a sparkling New Year's Eve party. The expert wine collector might benefit more from the Sotheby's Collection Management & Advisory Service (price upon request), which proposes to tweak any connoisseur's collection by providing a wide range of resources, from an initial consultation and curated tasting to sommelier services, annual portfolio analysis and reporting to achieve the perfect sips of the season. —MM
